\_\_\_\_\_(INITIAL) I understand that I am liable for any vet expenses.

\_\_\_\_\_(INITIAL) I understand that I MUST have Trupanion health insurance for my puppy effective immediately starting the day before pick-out at 8 weeks old. Insurance must be effective during training and when puppy goes home. Trupanion will start insurance on the day that the insurance is purchased (other insurance companies have a 30-day period of no coverage). You can use the code #BR2SL9718 to waive the enrollment fee and give your puppy instant coverage. There is a link to the Trupanion insurance is on our website under "Preparing for your Puppy."

This training is a foundation that you will be building upon. **You will be training your puppy for at least the next two years.** Nipping, jumping up and pulling on the leash will be a continual pursuit of your puppy and will take at least a year for you to master. Higher-level obedience (coming when called off lead at a beach) may take up to two years. Puppies also need time to just be puppies. They will have sudden spikes of energy which causes them to run wildly around the house. (They are very similar to kids). Enjoy this season in their life because they grow up so fast.

We will teach you the tools to handle these behaviors that will help you to raise your puppy to be well mannered, fun-loving and enjoyable. **You must continually remind yourself that training is 80% Praise and 20% discipline.** If you reverse these numbers you may cause your puppy to be insecure, afraid or overly defiant. We will continue to be there for you to call upon for guidance. Stay positive, be consistent, love them unconditionally (just like our kids) and don't ever give up. Schedule time to come and visit your puppy so that we can teach you how to continue your puppy's training when he/she goes home with you.

Thank you,
